PITCH SESSIONS

The MedFIT pitch sessions offer the opportunity to detect the most innovative and promising start-ups, R&D projects and licensing opportunities in order to foster partnerships and business development opportunities in the MedTech, Diagnostic and Digital Health fields.

Start-up Slams

The Start-up Slams are a great opportunity for **young companies** (and particularly for start-ups seeking to raise a financing round) to showcase their project in front of potential partners and investors. The winner will be awarded as the **most innovative start-up in Europe**.

Collaborative and licensing opportunity presentations

The Collaborative and Licensing Opportunity Presentations enables **TTOs, universities, research institutes and companies** to showcase their technologies in front of potential partners, in order to entail a collaborative project and/or a licensing deal. The winner will be awarded as the **most promising technology in Europe**.

Selected candidates will have enhanced visibility on MedFIT communications and the opportunity to be coached to improve their pitch during a **warm-up session** with MedFIT Steering Committee members.
